SUMMARY

Motivated Full Stack Developer (Graduating June 2026) with hands-on experience building scalable MERN stack applications. Proven track record of architecting RESTful APIs, integrating third-party services (Stripe), and implementing secure authentication systems. Adept at writing clean, maintainable code and collaborating in cross-functional teams. Seeking to contribute to Roxiler Systems' mission of empowering digital transformation through cutting-edge web solutions.

SKILLS

Programming Languages: JavaScript (ES6+), Java

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive UI/UX

Backend & Frameworks: Node.js, Express.js, RESTful API Design, MVC Architecture

Databases: MongoDB (CRUD, schema optimization), MySQL

Tools & Technologies: Git, GitHub, Postman, CI/CD, Clean Code Principles

EXPERIENCE

Full Stack Web Developer Trainee | GrowPro Rise Pvt. Ltd. | Pune, MH

Aug 2025 – Nov 2025

- Built and maintained full-stack web applications using React.js, Node.js, Express.js, and MongoDB, ensuring seamless frontend-backend integration and responsive UI.
- Designed and optimized RESTful APIs to improve data flow, system throughput, and overall application performance.
- Implemented CRUD operations with efficient database schema handling to support scalable, high-performance applications.
- Conducted debugging, profiling, and code optimization to enhance reliability, responsiveness, and application stability.
- Followed clean code principles and Git-based version control workflows; maintained thorough documentation for team collaboration.

PROJECTS

Alumni Management & Mentorship Platform | React.js · Node.js · Express.js · MongoDB

| [GitHub Link](#)

- Developed a full-stack platform enabling student-alumni networking and mentorship collaboration, serving as a centralized hub for career growth.
- Designed RESTful APIs and optimized MongoDB schemas for efficient management of user profiles, mentorship requests, and relationship data.
- Engineered an AI-based recommendation engine matching students with mentors based on skill-set alignment and career interests.
- Built an admin dashboard for streamlined alumni management, request workflows, and system health monitoring.
- Implemented JWT-based secure authentication and role-based authorization ensuring data privacy and scalable user access.

Food Delivery Application | React.js · Node.js · Express.js · MongoDB · Stripe

| [GitHub Link](#)

- Built a full-stack food ordering platform featuring a responsive React.js UI with real-time data updates and smooth UX.
- Designed and integrated RESTful APIs for order lifecycle management, cart operations, and user interaction flows.
- Integrated Stripe payment gateway for secure, PCI-compliant online transactions and order confirmation handling.
- Optimized backend logic and MongoDB operations to improve query performance and reduce API response times.
- Implemented user authentication and session management to ensure secure, personalized user experiences across devices.

EDUCATION

B.E. Information Technology

Savitribai Phule Pune University

Expected: June 2026

CGPA: 8.2 / 10

Higher Secondary Certificate (HSC)

Shri Dnyaneshwar Mahavidyalaya, Newasa

2021 – 2022

Percentage: 73.5%

LEADERSHIP & CERTIFICATIONS

- Full Stack Web Development (MERN)** – Apna College Nov 2024
- JavaScript Certification** – Infosys Springboard Aug 2024
- Tech Expo Event Organizer (Department Level)** – Led a **50+ student** technical event; managed registrations, faculty coordination, and end-to-end execution, demonstrating **leadership** and **cross-team communication** skills.
